About

I'm a creative full stack engineer, my passion is to develop quality websites and applications that are adaptable, powerful, modern in style and visually attractive. I'm self-taught, fast learner, and a true believer that anything is possible with hard work, dedication, and passion.

Experience

Front End Developer & UI/UX Design

Hubrise

10/2023 - 09/2024

- Responsible for wireframing, designing and implementing multiple app suites for retails and restaurants management.
- Successfully implemented updates to existing application interfaces according to owner and customer requirements to gain confidence and increase high profile customers with more than 1,000 branches around the globe.

Mobile Developer

Carterhaugh LLC

06/2021 - 09/2022

- Develop a photo gallery-like React Native Application with complicated animations and user interactions, ensuring that the application can run smoothly even with thousands of photos.
- Integrated an external Bluetooth device into the React Native App, enabling the seamless transfer of images from the device to the app.

Shopify Themes Developer

Fourthwall

07/2020 - 05/2021

- Developed numerous online stores with shopify for content creators, translating Figma designs into pixel perfect and functional web pages, using Shopify Liquid, CSS, Javascript and adhering to best practices and BEM architecture for efficient and maintainable code.

Freelance

10/2019 - 04/2020

- Developed custom website management systems for lawyers using Next.js, Node, MongoDB, Express, enabling efficient content management and website customization.
- Assisted clients in blog implementations and migrations using Gatsby
- Created multiple landing pages for service-based businesses, working closely with clients to understand their target audience and goals.

Education

Software Engineering

UCAB

Venezuela **2023**
